W16-P1: Show w4-card in demo_47.html

The screenshot shows a browser window displaying a web page. The page has a header with the text "John Doe". Below the header, there are two cards. The first card is titled "First Card" and contains the text "Lorem ipsum, dolor sit amet, possimus soluta est debitis minima nemo modi temporibus cupiditate.". It also features a "SIGN IN" button. The second card is titled "Second Card" and contains the same text and a "SIGN UP" button. The browser's developer tools are open, showing the HTML code and the corresponding CSS styles for the cards. The CSS styles include classes like .w3-card, .card, .icon, and .w3-card .card-1.

W16-P4: Show responsive about project section

The screenshot shows a code editor with two SCSS files open: `styles_xx.scss` and `1121-web-409730347`. The `1121-web-409730347` file contains media queries for different screen widths, defining grid layouts for a 'projects' section. A red box highlights the relevant code in both files. To the right, a browser window displays a website with a 'Latest Works' section containing four images of laptops. Below it is a section titled '一起来認識交通工具吧！' (Let's get to know transportation tools!) featuring five cards with icons and descriptions of various vehicles.
