### W13-P1: Show social icons of your own (five icons)

The screenshot shows a code editor on the left and a browser window on the right. The code editor displays a portion of `_global_xx.scss` with the following CSS:

```

129  /* global classes */
130  .social-icons {
131    display: flex;
132    gap: 1.7rem;
133    margin-top: 2.5rem;
134    justify-content: center;
135    align-items: center;
136  }
137  .social-icon {
138    font-size: 1.7rem;
139    color: var(--clr-grey-5);
140    transition: var(--transition);
141  }
142
143  .btn {
144    text-transform: uppercase;
145    background: var(--clr-primary-5);
146    color: var(--clr-primary-1);
147  }

```

The browser window shows a navigation menu with links to Home, About, Projects, and Contact. Below the menu, there is a row of five social icons (Twitter, Facebook, Instagram, GitHub, YouTube) enclosed in a red box. The browser's developer tools are open, showing the element inspector with the following CSS for the social icons:

```

.social-icons {
  display: flex;
  gap: 1.7rem;
  margin-top: 2.5rem;
  justify-content: center;
  align-items: center;
}
ul {
  list-style-type: none;
}

```

```

```

### W13-P2: Show hero section with photo displayed

The screenshot shows a developer's setup with two main components:

- Left Side:** A code editor window displaying `styles_xx.scss` and `script_47.js`. The `styles_xx.scss` file contains SCSS code for a hero section, including styles for the hero image and its placeholder content.
- Right Side:** A browser window showing a portfolio website for "John Doe". The page features a large hero section with a portrait of John Doe, a "HIRE ME" button, and a navigation bar with links to "home", "about", "projects", and "contact". The developer tools are open, specifically the element inspector, which highlights the `.hero-center` grid container. The element inspector shows the following details for the `.hero-center` element:
  - Media Query:** `@media screen and (min-width: 768px)`
  - Grid Properties:** `grid-template-columns: 1fr 1fr;`
  - Dimensions:** `min-height: calc(100vh - 4rem);`
  - Positioning:** `display: grid;` and `place-items: center;`
  - Content:** `<div class="hero-center hero-center"> grid = $0`

### W13-P3: Show About Section and its css

The screenshot shows a developer's setup with a browser window displaying an "About" section of a website. The section includes a large photo of a person holding a camera, a title "About", and a paragraph of text. Below the text is a "ABOUT ME" button. The developer tools are open, highlighting the `.about-img` element, which contains the photo. The element inspector shows the following details for the `.about-img` element:

- Media Query:** `@media screen and (min-width: 768px)`
- Display:** `display: block;`
- Width:** `width: 70%;`
- Position:** `position: relative;`
- Content:** `<img>`
